Chairman's Message

With a vision to be the best in class electrical and mechanical contractors, Abbadi was established in 2005 with great commitments and strict ethics. This vision has developed us from who we were then to who we are now.

After 12 years of experience in the field of electrical and mechanical, we have grown into an organization that possess an effective management team and highly skilled professional workforce. Quality work, honesty, client satisfaction and strict time bound completion of the projects have made us top contractors in the UAE. The credit for the success of Abbadi is fully given to our professional employees with whom we strive forward for an even brighter future.

With best regards

Koyakutty Mohammed
Founder and Chairman
Abbadi

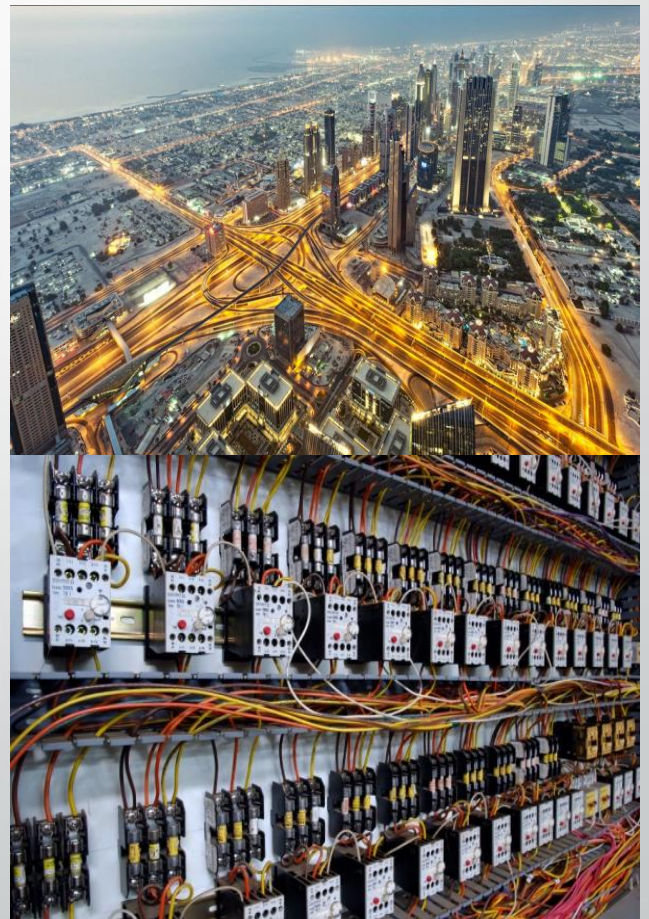

About Us

Abbadi Tech Electrical and Mechanical Cont. Co. L.LC was established in 2005 in Dubai, the heart of United Arab Emirates. We are registered under Dubai Water and Electricity Board (D.E.W.A).

We are professional Engineers and Technicians specialised in the field of Electricity, Plumbing, Drainage, Air Conditioning and Interiors for multi-storey buildings, government, commercial/residential building, storage facilities, complex and public amenities.

With years of experience in the field along with highly skilled professionals we guarantee reliable, quality, cost efficient and strict time bound project completion for the complete satisfaction of the client . We tackle any kind of obstruction we face with innovative idea and critical thinking.

We ensures that the services we provide improves the value of our customers without compromising the quality, time and expense.
